

# 2-DAY TRAINING

Jan. 14 & 21, 9:00am - 4:00pm

## Day 1: Introduction to Restorative Practices

Learn practical strategies to build strong, healthy relationships with students, families, clients, employees, and colleagues. Interactive activities for understanding the foundation of restorative practices—that people are happier, more cooperative, and productive and more likely to make positive changes in their behavior when those in positions of authority do things **with** them rather than **to** them or **for** them.

## Day 2: Using Circles Effectively

Group discussions in a circle facilitate meaningful conversation and encourage full participation from everyone involved. Through role-play, video, practical application and discussion, participants solidify methods for using circles to build community, establish norms and address behavior and relationships. Useful in many settings, from education and other human services to organizational management.
